for BANANAS

Xtend® MA/MH packaging for Bananas preserves quality and freshness during prolonged storage and shipment by —

- Slowing down the ripening process
- Minimizing decay

Performance

product item	cold storage duration	shelf life duration
Bananas	35 days @ 13-14°C (55-57°F)	7 days @ 20°C (68°F)

Since growing, harvesting, storing and shipping conditions vary widely among growers, regions and cultivators, StePac expressly disclaims any responsibility for the integrity and quality of produce and/or any other contents placed in the Xtend® packages, or for damage thereto.
